

Sherpa Consulting Pty Ltd

A specialist consultancy in the Health, Safety and Environment (HSE) engineering field

Senior Consultant – Reliability and Asset Management

Sherpa Consulting is an independent, Sydney based, consultancy specialising in Process Safety, Risk and Environmental Engineering. We are a young dynamic company having started in 2004. Since starting, the company has grown considerably with work expanding from Australia to include SE Asia and the USA.

Sherpa is currently looking for a senior consultant to help expand the expertise within the company. The applicant should have experience in the oil and gas industry (downstream), mining and/or infrastructure, with experience being through plant/operations or consulting. Specific skills of interest include:

- Life cycle cost analysis;
- Asset management (in terms of maintenance);
- Reliability and availability modelling; and
- Failure mode analyses.

As a senior consultant, you will be expected to take a leading role in projects. Hence, good communication and management skills are highly desirable.

Sherpa Consulting is a dynamic organisation, fostering learning and individual development. Performance is rewarded through competitive salaries and bonus scheme.

Interested applicants should forward their CV and cover letter to Sherpa Consulting at helene.devries@sherpaconsulting.com.au. If you wish to discuss the role further please call the office on (02) 9412 4555.
